

ANDRI RUTSCHMANN

Empirical AI researcher working where large language models meet computational social science — multi-agent simulation, evaluation, and deployment at scale.

CONTACT

✉ rutschmanna@pm.me

🏠 rutschmanna.github.io

🐦 [@rutschmanna](https://twitter.com/rutschmanna)

FOCUS

Research

LLMs & agentic systems, multi-agent simulation (GABM), NLP, model evaluation, reproducibility & generalizability

Programming

Python, Bash, R, SQL, HTML, CSS, JavaScript, Java

ML & LLMs

PyTorch, TensorFlow, Transformers, vLLM, bitsandbytes, Hugging Face

Data & Infrastructure

pandas, NumPy, SciPy, scikit-learn, sqlite3, asyncio, venv, Kubernetes, Docker, GitHub, Linux

LANGUAGES

German (native)

English (C2, TOEFL 112/120)

Spanish (B1/B2)

PROFESSIONAL EXPERIENCE

📅 2023 - 2026

📍 Center for Data and Methods
University of Konstanz, Germany

Research Assistant

Implemented and deployed a full-stack self-hosted **Llama-3.1-405B** RAG chatbot using Hugging Face **Text Generation Inference (TGI)**.

Studied agent persona alignment in LLM-based social simulations, communicating both findings and their limitations.

Analyzed large-scale social-media interaction data and emergent behavior in structured environments.

📅 2025 - 2026

📍 Center for Data and Methods
University of Konstanz, Germany

System Administrator

Managed an **8×NVIDIA H100** GPU Kubernetes-cluster — access coordination, remote-compute deployment, documentation, and user education.

📅 2023 - 2024

📍 Center for Data and Methods
University of Konstanz, Germany

Tutor

Taught “Deep Learning for the Social Sciences”, “Introduction to Computation for the Social Sciences”, and “Python Crash Course”.

📅 2021 - 2022

📍 Faculty of Education (EWI)
University of Leipzig, Germany

Research Assistant

Survey platform *Lehramtskompass.de*: data processing, evaluation, analysis, and visualization.

EDUCATION

📅 2022 - 2025

📍 University of Konstanz, Germany

M.Sc. Social & Economic Data Science

“Simulating Public Online Discourse Using Large Language Models” — thesis supervised by **Prof. Dr. David Garcia** and **Dr. Max Pellert** as part of the EU's Horizon 2024 “**WHAT-IF**” project; simulation of political discussions among 180 LLM-based agents in a Reddit-like environment and study of emergent behaviors.

📅 2019 - 2022

📍 University of Leipzig, Germany

B.A. Sociology

“Sexism and Political Orientation — How Twitter Followings Can Be Used to Predict Online Sexism” — thesis supervised by **Prof. Dr. Marc Keuschnigg** and **Prof. Dr. Stephan Poppe**; retrieved, classified, and analyzed over 5M Tweets using a specially created German-language sexism-detection training dataset and self-trained ML classifiers.

PUBLICATIONS

280 Characters of Bias: Left vs. Right Followership and the Likelihood of Sexist Statements on Twitter

👤 **Andri Rutschmann** & Sascha Grehl

📖 Soziale Welt, in press

OPEN SOURCE SOFTWARE

GeSTiC-14k – German Sexism Twitter Corpus — Combination of the [GermEval-2018](#) hate-speech detection dataset, key-word queried Twitter posts, and edge case active learning observations.

👤 **Andri Rutschmann** & Sascha Grehl

2026

📖 github.com/rutschmanna/GeSTiC-14k

SPOD – Simulating Public Online Discourse — Extension of the [OASIS](#) multi-agent simulation framework for studying emergent behavior in online political discourse of LLM agents.

VOLUNTARY ENGAGEMENT

2022 - 2025

University of Konstanz, Germany

Member of AK SEDS, the student body representative of the M.Sc. Social and Economic Data Science.

2022 - 2023

University of Konstanz, Germany

Student representative on the W2-professorship committee “Senior Lectureship in Computational Social Science and Data Science”.

2021 - 2022

Radio Mephisto 97.6, Leipzig

Managed the audio-art station “Hörkunst Resort Lauschangriff”; created, produced, and published radio plays and audiobooks.
