

ANDRI RUTSCHMANN

Data scientist with focus on LLM research, AI, social media data analysis, machine learning, statistics, and empirical research methods

CONTACT

-  rutschmanna@pm.me
-  (+49) 163 9820492
-  Leipzig, Germany
-  rutschmanna.github.io
-  @rutschmanna

CORE OVERVIEW

Focus Areas

- AI 
- ABM 
- LLMs 
- GABM 
- ML 
- NLP 

Data

- Analysis 
- Visualization 
- Scraping 
- Wrangling 

Programming

- Bash 
- HTML/CSS 
- Java 
- JavaScript 
- Python 
- R 
- SQL 

Software

- Docker 
- GitHub 
- Huggingface 
- Kubernetes 
- LaTeX 

Operating Systems

- Linux 
- MS Windows 

LANGUAGES

- English 
- German 
- Spanish 

PROFESSIONAL EXPERIENCE

-  2023 - current **Research Assistant**
 Center for Data and Methods
University of Constance, Germany

Large scale social media data analysis, full-stack Llama-3.1-405B chatbot development, GABM, multi-agent LLM-based social simulation, concept & framework validation

-  2025 - 2026 **System Administrator**
 Center for Data and Methods
University of Constance, Germany

8x Nvidia H100 GPU cluster management and access coordination, deployment of remote computing solutions, documentation, and education

-  2023 - 2024 **Tutor**
 Center for Data and Methods
University of Constance, Germany

Courses: “Deep Learning for the Social Sciences”, “Introduction to Computation for the Social Sciences”, and “Python Crash Course”

-  2021 - 2022 **Research Assistant**
 Faculty of Education (EWI)
University of Leipzig, Germany

Maintenance of survey website “Lehramtskompass.de” as well as survey evaluation and data wrangling, analysis, and visualization

EDUCATION

-  2022 - 2026 **M.Sc. Social & Economic Data Science**
 University of Constance, Germany

“Simulating Public Online Discourse Using Large Language Models”
Thesis supervised by Prof. Dr. David Garcia and Dr. Max Pellert as part of the EU’s Horizon 2024 funded “WHAT-IF” project, that simulated political discussions in a Reddit-like environment using 180 LLM-based social media agents

-  2019 - 2022 **B.A. Sociology**
 University of Leipzig, Germany

“Sexism And Political Orientation – How Twitter Followings Can Be Used To Predict Online Sexism”

Thesis supervised by Prof. Dr. Marc Keuschnigg and Prof. Dr. Stephan Poppe, that retrieved, automatically classified, and analyzed over 5 Mio. Tweets and produced a large scale German sexism-detection training dataset

SKILLS

Large Language Models

LLM deployment

LLM finetuning

LoRA

LLM simulacra

GABM

social simulation

LLM ethics

Packages & Libraries

pytorch

tensorflow

transformers

vLLM

bitsandbytes

numpy

scipy

pandas

scikit-learn

matplotlib

seaborn

sqlite3

pymongo

asyncio

venv

tidyverse

D3

three

Vim

kubectl

nginx

PUBLICATIONS

Rutschmann, A., & Grehl, S. *280 Characters of Bias: Left vs. Right Followership and the Likelihood of Sexist Statements on X (Twitter)*. (Under review).

VOLUNTARY ENGAGEMENT

2022 - 2025

University of Constance, Germany

Member of the AK SEDS, the student body representative of the M.Sc. Social and Economic Data Science

2022 - 2023

University of Constance, Germany

Student representative in the W2-professorship committee “W2 Senior Lectureship in Computational Social Science and Data Science - CSS”

2021 - 2022

Radio Mephisto 97.6, Leipzig

Management of the audio art station “Hörkunst Resort Lauschangriff” and creation, production, and publication of radio plays and audiobooks
